Changes to cycling conditions - 2016
during Riverside Expressway rehabilitation and maintenance works

December 2015

Dear stakeholder

Changes to cycling conditions during Riverside Expressway works - January to December 2016

The Department of Transport and Main Roads (TMR) will be carrying out rehabilitation and maintenance works on top and under the Riverside Expressway (REX) on the piers and the on and off ramps.

Cycling changes during works
During these investigation works the Bicentennial Bikeway under the REX will remain open, however there will be changes to cycling conditions.

Cyclists may need to:
• reduce speed and/or
• dismount for short distances from time to time

Directional signage will be in place.

Timing:
Works are expected to be carried out from Sunday 4 January 2016 until late December 2016, weather and construction conditions permitting. Timings will be:
• day works will be carried out Monday to Friday, between 6am and 6pm
• night works will be carried out Sunday to Thursday, between 6pm and 6am
• there will be some weekend works.

Night work is required for some activities to avoid traffic congestion and ensure the safety of roadworkers and motorists.

What to expect during works:
• minor traffic delays (reduced speed limits, partial lane closures) on REX during night works
• the Bicentennial Bikeway under the REX will remain open during the works, however, cyclists may need to reduce speed and/or dismount from time to time
• additional work lighting, dust and noise (machinery and reversing vehicle beepers)
• traffic controllers and signage will be in place to ensure safety of road workers, cyclists, pedestrians and motorists.

Please follow the direction of roadside signage and traffic controllers.
TMR appreciates your patience while these important works are being carried out.

If you require further information on this project, please contact the project team by email at metropolitanregion@tmr.qld.gov.au or on 13QGOV (13 74 68) during business hours.
