**ISSUING OF KEYS**

This procedure outlines the steps to be taken when issuing keys to contractors and consultants on all campuses. It has been raised in consultation with Facilities Management Campus Services and Security Section.

Issue of keys “in-hours times” for Gardens Point are (Monday – Friday 07:00 to 15:15) Kelvin Grove (Monday – Friday 07:00 to 16:45).

**ACTION BY PROJECT MANAGER**

Relevant Project Manager is to provide permission by fax to the relevant key point of issue. Details are to be provided on the Building Access Authority Form and include:

- Name of person/s allowed to be issued
- Name of company
- Building and area in building (eg room number/s) access required to
- Date/s and time/s access allowed (eg 0700 – 1600 25 feb to 28 feb 2002)

Advising if it is likely a roof or confined space is to be accessed or if hot work may be done (this will prompt staff that a safety permit may be required)

**ACTION BY KEY POINT OF ISSUE**

Upon receipt of a written request by a Project Manager, register and file the request in a Key Issue binder, divided by company in alphabetical order. A second binder is to also be kept containing those authorities that have expired. Upon request by contractor/ consultant for a key, the Key Issue binder is to be checked to see if that person has authority to access the requested area. If there is no authority for that area then no key is to be issued. Refer the contractor/ consultant to the relevant Project Manager.

If there is authority the key may be issued after ensuring the following details are carried out:

- Person provides proof of identification (e.g. company ID card, drivers license)
- Person advised of policy that if keys are lost the cost of re-keying shall be born by the person, and no keys are to be taken off campus
- Person provides their (preferably on-site) contact details (e.g. mobile phone number)
- Person provides details of company name
- Person advised of requirement to return keys by 15:15 (GP) or 16:30 (KG)

**EXTERNAL PROJECT MANAGERS**

The key point of issue must be notified by the QUT Project Coordinator of the appointment of an external project manager, their details and the project they will be managing before keys can be authorised for issue. For example “Joe Bloggs from Hannibal Project Manager Services is permitted to authorize key issues for level 3 of D Block Kelvin Grove for the period 01-31 March 2005”

**MEETING ON-SITE**

It is not the role of workshop staff, campus services staff or security staff to meet contractors/ consultants on site to provide access. Except in cases of emergencies, such requests will be denied.
OUT OF HOURS ACCESS – BY SECURITY OFFICER

If out of hours access is required the process is dependant upon the extent of service required. The Security Section can provide limited assistance in opening doors for contractors. As an example, if a contractor requires access to 3 or 4 doors in one area of a building to be opened this can be arranged by emailing a request to timetabling@qut.edu.au cc cms@qut.edu.au and the relevant Security superintendent by 14:30 on the working day prior. If several doors are required to be opened, or there are doors in different buildings, or doors requiring opening at various times, then the Security section does not have the ability to provide this extent of service. If in doubt, consult first with the relevant campus Security Superintendent.

OUT OF HOURS ACCESS – BY KEY PROVISION TO CONTRACTOR

To be arranged through GP Workshop, Help Desk KG for keys to be bagged and given to Security. On the envelope which keys are inside, details of who is collecting them should be clearly marked including Company Name, Name of Consultant/Contractor with their mobile number, QUT Project Manager and their mobile number, Date to be collected with start and finish time. Key numbers are to be identified on the envelope. Keys will be issued to the relevant Campus Security office. Contractors to call Security on 3138 5585 when they have arrived on-site to request issue of keys. Contractors are to return keys to Security at the end of the working day, Security are then required to return keys to point of issue prior to 0700 hours the next working day. Project Managers should provide ‘for information’ advice of these arrangements to help3000@qut.edu.au, the Central Monitoring Station (CMS) cms@qut.edu.au and the relevant Campus Security Superintendent.

KEY POINT OF ISSUE AND CONTACT DETAILS

Gardens Point Workshop: Monday to Friday 07:00 – 15:15
Fax : 313 81559
Ph : 313 83000
G-H Link, Level 1
